

Apply to IMAE if ecological care is important to you!

We accept students from all over the world. Your qualifications, previous experience and motivation are essential for us as the program will also benefit from your personal life history.

The IMAE experience means that your environmental concern will benefit from various professionals and daily cultures in at least 3 different countries.

Who can apply?

- ✓ Bachelor (B. degree or a nationally recognized degree equivalent to 180 ECTS) from a field in relation with the scope of the IMAE master.
- ✓ Fluent proficiency in English certified by an internationally recognized test is required (excepted for native speakers).

Selection Criteria:

Academic excellence 60%
Motivation 25%
Competences and practical experiences 15%

INTERNATIONAL MASTER in APPLIED ECOLOGY

Welcome!

The International Master in Applied Ecology (IMAE) is a **Joint Master Course** offered by the University of Coimbra (UC - Portugal) and the Christian-Albrechts-Universität zu Kiel (CAU - Germany) in close cooperation with an international consortium of 4 Universities from different countries: University of East Anglia (UEA – UK), Federal University of Rio Grande do Sul (UFRGS – Brazil), University of Saskatchewan (UoS – Canada), and University of São Paulo (USP - Brazil).

Joint Degree Programme
Quality education with mobility scheme between
universities in the consortium

Apply to IMAE if ecological care is important to you!

When we designed the teaching program, we aimed at a balance between theoretical courses and practical experiences (field trips, meetings with stakeholders, seminars) including a six-months period of professional experience (master thesis) in one of the institutions of the consortium.

When you apply to the programme you can choose between two specialization pathways:

- Environmental Quality Assessment
- Conservation or Ecosystems Functional Analysis

You will follow a common mobility route for the first year (both first and second semesters) before selecting your final training among the different mobility options offered for the second year.

Complete information on:
www.imae.online

Apply to IMAE if ecological care is important to you!

Tuition fees

EU nationals: 4.500€/yr

Non-EU nationals: 9.000€/yr

Fees include:

- registrations at UC, CAU and the HEI selected for the second year
- expenses of all field trips

Grants

- Students selecting the UoS in the second year can apply to a grant from Canada (CREATE program)

www.imae.online

Joint Degree Programme
Quality education with mobility scheme between
universities in the consortium

Apply to IMAE if ecological care is important to you!

Mobility route

1st Year

1st Semester: Coimbra, Portugal. An extended scientific study programme where you will be familiarized with the main approaches in Ecology. Mobility tracks provide you with the opportunity to experience a Field Course in Mediterranean Ecosystems in Portugal and another Field Course in Tropical Ecosystems in Brazil.

2nd semester: Kiel, Germany. You will have the chance to participate in many field courses and excursion offered by the university.

2nd Year

1st & 2nd semesters: You will be registered at **UC** or **CAU**. In case you decide to do or to complete your Master Thesis project in a partner university, you will also be registered there: UEA, UFRGS or UoS.

IMAE welcome party

Meeting the new colleagues and the consortium coordination!

Learn in the Field - Immersed in the exciting excursions

Experience cultures – Belong to an international network
